Total number of books loaned,	2,401
Average each library day,	25
Number of borrowers cards in use,	185
Amount received in fines,	\$2 07

MRS. E. A. DANFORTH, Librarian.

## REPORT OF THE BOARD OF EDUCATION.

The school meeting was held March 9, 1895. A. F. Cram was re-elected for three years, J. H. Goodrich elected clerk, L. P. Hadley elected treasurer of school district. Board organized March 15, H. H. Joslin chairman, J. H. Goodrich clerk, A. F. Cram secretary.

Whole number of pupils registered,	111
Number of schools,	5 1-2
Average weeks of school,	26 2-11
Number of teachers employed,	7
“ “ “ residents of Lyndeboro’,	2

As will be seen there were fewer schools this year, consequently longer terms.

Miss Duncklee, who has been the teacher in No. 4, came from her home in Francestown and brought her No. 4 scholars to No. 1, where she taught with good success.

Miss Hadley, well known as one of our successful teachers, has taught this year in No. 2, where, as usual, she has had two very pleasant terms. In her register we find, “Harry Holt collected the largest collection of minerals, which he has given to the school.”

Miss Fletcher, of Greenfield, an energetic, wide-awake teacher, has given excellent satisfaction in our village school during the year. Ethel Hadley won the first prize for the best collection of wild flowers, having two hundred and sixty-two varieties, Bertha Perham the second, having some over two hundred.

Miss Wilder, another of Greenfield’s teachers, has done good work in No. 9, having also the scholars from No. 5. Owing to mumps, which appeared about two weeks before the school was to close, the school was closed at once without an examination.

Miss Chase, of Vermont, taught the spring term in No. 6. It was her first school. She is an excellent scholar and at the examination, for which no special preparation had been made, the scholars recited very understandingly.

Miss Perham, of Wilton, taught the remainder of the year. She had had no experience as a teacher. The whooping cough made a break in the school, somewhat to its disadvantage. Bad weather and traveling prevented our attending the examination, but at a previous visit the school appeared well, and we predict that she will be a successful teacher.

We were sorry that there were not scholars enough in No. 7 to have a school in the fall. Mrs. Curtis was very much liked by her pupils, who made good progress. We wish she could have a good number of them.

Every district would like to have an experienced teacher, but the experienced ones have to make a beginning, and we should be willing to give the new recruits a chance, and not expect too much of them. It takes time and experience to learn that branch of work as well as any other. If every one who intends to teach could take a course at a Normal school it would be to the advantage of all concerned.

Fifty school children took part in the Memorial day exercises. The schools celebrated Children's day as usual.

Mrs. Mary A. Lull, of Milford, kindly gave a lecture by invitation of the Y. P. M. I. society. The next day we had the pleasure of listening to several scholars who had written what they could remember of her account of her visit to Ireland. The efforts were very creditable and showed that they had given close attention. This habit of attention should be cultivated as it is a pleasure and help to one to be able to remember much of a lecture or discourse one has listened to.

We think that child training is a serious thing. It is very necessary that they should start right. A very slight deviation from the right way at first will, if the line be pursued, make a vast difference at last. What they learn in the nursery is as important as what they learn in college. It should be the aim to lay a foundation of personal integrity. One needs a good amount of moral vetebra to go through life and keep straight. One of the first and most important things a child should learn is obedience. Unless he learns it at the beginning it will be very hard for him to obey the rules and laws that he will meet with in life's journey, and that must be obeyed if he would make his life a success. Every child should be taught the Golden Rule and made to see its importance. If that was followed by all very few laws would be required.

A great help to right living is right thinking. We should try to fill the children's minds with thoughts of pleasant things and those that are pure and elevating, then their conduct will correspond with their thoughts, and if they learn to govern their thoughts and give no place to evil ones, their lives will be happy and useful. May all who have the care of children remember the importance of their work and be faithful in the discharge of their duties.

Respectfully submitted,

ABBIE F. CRAM, Secretary.
